CALGARY FAMILY THERAPY CENTRE CARES

In light of the new realities that have come with emerging knowledge about COVID-19, we want to assure you that we are taking every precaution necessary to ensure your wellness and safety. We are working to deliver continuity of care for families and helping to manage the risk of infection.

If you have an appointment at our agency, please use hand-sanitizer immediately upon arrival. Please do not visit the Centre if you are unwell, have recently travelled outside of Canada, or have been in contact with anyone who has cold or flu symptoms.

As information about COVID-19 changes, we know there is a possibility that face-to-face family therapy services at our Centre may have to be suspended. If this occurs, we will be exploring alternative ways to provide support with the help of technology.

We are continually inspired by the resiliency and resourcefulness that shines through our client families and feel hopeful that with open, caring hearts we will continue to provide solace and relational healing during these unprecedented times.

Sincerely,

The CFTC Team
